## Cautions before usage

### Cautions before usage

- Static electricity from TV causes some problems on box karaoke. After connecting the box karaoke and TV, please turn on TV power.
- When you insert or remove an additional pack, you have to turn off TV in advance.  
(It can affect data memory)
- If microphone sound is strange, please reset it as initialization.  
( → Special mode → If you press **8** button four times, it can be initialized)
- Please do not use it around the operating electronic oven.  
(It causes a noise or microphone echo abnormally)
- Please use the adaptor provided for the box karaoke only.  
(DC7V, 400mA)  
(Overheating causes fire or wrong operation of box karaoke)

## Connection method

### 1. Connecting with TV

Please check external input (video) of TV.

1. Please connect TV and box karaoke by cables.  
(Please refer how to connect with TV)
2. If TV input terminals are two, please insert yellow color, and one color out of white, red colors.  
**(Please refer how to connect mono type)**
3. Please connect the adaptor with electric cord, and connect the end part on power (DC7V/400mA)
4. Please insert the batteries (AAx2) on the wireless microphone, noting polarity.
5. After turning on TV, please adjust the channel as external input or video channel like picture1.

6. After pressing power button of box karaoke, when logo is loaded, box karaoke is ready to be played.
7. Please press the power button of a wireless microphone (LED of microphone is changed as Green color)

※When the color of microphone LED is changed to red color, please exchange the batteries

## Connection method

### 2. Connecting with TV and Audio

It is available to use to connect with audio by an audio connection line which is on the market.

After installation of audio connection line, and turning on TV and Audio power, If you press "External input" or "AUX" from audio, the sound is outputted.

✳Extension cable is optional.

## **Additional page**

### **User's Manual Information**

#### **Do not**

Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

#### **FCC Compliance Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received,

Including interference that may cause undesired operation

#### **Information to User**

This equipment has been tested and found to comply with the limits for a Class B digital device, Pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio Frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
